Professional Summary

Final-year BSc Information Technology undergraduate at the University of Moratuwa with experience building scalable full-stack web applications using React, Next.js, .NET, and Azure. Delivered production systems across logistics, e-commerce, and AI-powered platforms for international clients. Passionate about software engineering, cloud technologies, and building high-performance user-focused applications.

Core Competencies: Full-Stack Development, REST APIs, Cloud Deployment, CI/CD, Microservices, AI Integration, Agile Development

Professional Experience

Software Engineer (Part-time) 02/2026 – 04/2026
Aventure Colombo, Sri Lanka

- Designed and developed the official Aventure corporate website using HTML, CSS, and modern frontend practices, delivering a responsive and visually engaging user experience.
- Implemented SEO optimization techniques, performance improvements, and responsive layouts to enhance search visibility, loading speed, and cross-device compatibility.
- Designed and developed an AI-powered Agentic Recipe Recommendation Platform with multiple interactive customer demo versions, including chat-based, form-based, and fully integrated landing page prototypes.
- Implemented conversational AI workflows, intelligent recipe recommendation features, and interactive user experiences for customer demonstrations and prototype validation.
- Collaborated with cross-functional teams on feature development, debugging, prototype enhancements, and system improvements.
- Participated in troubleshooting, testing, and technical discussions while following modern software engineering best practices.

Tech Stack: HTML, CSS, JavaScript, React, Next.js, TypeScript, Tailwind CSS, OpenAI APIs, Git

Freelance Developer (Part-time) 08/2025 – 01/2026
Helixios Pvt Ltd Dubai, UAE (Remote)

- Developed a full-featured e-commerce platform using .NET and React, implementing order management, payment processing, and customer-facing features.
- Built a service provider application for the Bahrain project, enabling seamless service management, scheduling, and real-time updates.
- Developed the frontend of an ERP system using React with an atomic-level component architecture, designing reusable UI components, consistent styling systems, and responsive user interfaces.

Tech Stack: .NET, ASP.NET Core, React, Azure, REST APIs

Trainee Software Engineer 02/2025 – 07/2025
Aventure Colombo, Sri Lanka

- Contributed to React version upgrade initiatives, refactoring legacy components, and ensuring compatibility with modern frameworks and libraries.
- Developed and maintained backend services using .NET, delivering scalable and maintainable features aligned with business requirements.
- Assisted in deploying applications to Microsoft Azure, ensuring reliable hosting, configuration, and performance optimization.
- Collaborated with cross-functional teams to support feature development, bug fixing, and system improvements.
- Participated in peer code reviews, ensuring adherence to coding standards and best practices.
- Supported troubleshooting and debugging efforts to enhance system stability and user experience.
- Engaged in technical discussions and internal knowledge-sharing sessions to continuously improve development practices.

Tech Stack: React, .NET, Azure, REST APIs, Git

EDUCATION

University of Moratuwa Sri Lanka 06/2022 – 06/2026
BSc (Hons) in Information Technology

Diploma In Business Management 01/2025 – 12/2025
ICBS Campus Colombo

Rahula College Matara 01/2019 – 10/2020
2A's (Combined Maths, Chemistry), 1B (Physics) | GCE O/L (2026) 9A's

Research Works

AI-Driven Virtual Reality Military Training System 01/2026 – 08/2026

- Developing an AI-enhanced VR training platform using Unity and C# that simulates adaptive combat environments with intelligent agents capable of real-time decision-making.
- Integrating ML-based personalisation and analytics to assess trainee performance and drive data-informed training improvements.

Tech Stack: Unity, C#, VR Development, AI/ML, Real-Time Simulation

PROJECTS

AFNA.ai - Freight negotiation and logistics management platform (Live in Production)  <i>Client: NexusCargos Role: Software Engineer, Freelancer</i> Built an end-to-end freight platform handling multi-carrier rate comparison and real-time tracking; reduced manual booking steps by ~60% through automated workflows. Tech Stack: Next.js · Node.js · PostgreSQL · REST APIs · CI/CD.	06/2025 – 09/2025
NexusCargoSync - AI based Logistics Management System (Live in Production)  <i>Client: NexusCargos Role: Full Stack Developer , Freelancer</i> Architected an AI logistics platform automating cargo document parsing and tracking for real-time visibility across 10+ daily shipment records. Tech Stack: React · TypeScript · PostgreSQL · Azure	02/2025 – 08/2025
Metromart.ae - E-Commerce Platform <i>Client: Amila Enterprices Role: Software Engineer, Freelancer</i> Delivered full-stack production e-commerce platform with Stripe payments, order management, and intelligent product recommendations; deployed on Azure with CI/CD pipelines. Tech Stack: React · .NET · ASP.NET Core · PostgreSQL · Azure · Stripe	09/2025 – 12/2025
Microservices E-Commerce Platform <i>Client: EAD Module Project Role: Team Lead and Dev</i> Led development of a microservices platform with event-driven order processing via Kafka and OAuth2 role-based access control using Keycloak Tech Stack: Next.js · Spring Boot · MySQL · MongoDB · Kafka · Docker	08/2024 – 12/2024
GuitarTunePro - Free Online Instruments Tuning Tool (Live in Production)  <i>Role: Self-Project / Developer / Creator</i> Real-time pitch detection web app serving 1,000+ active users/month across multiple tuning modes. Tech Stack: React · TypeScript · Next.js	01/2025 – 05/2025

TECHNICAL SKILLS

Programming Languages — JavaScript, TypeScript, C#, SQL, HTML/CSS
Frameworks & libraries — React, Next.js, .NET / ASP.NET Core, Node.js, Tailwind CSS
Cloud & DevOps: — Microsoft Azure, CI/CD, Docker
Databases — PostgreSQL, MySQL, MongoDB
Tools — Git, REST APIs, Kafka, Keycloak, OpenAI APIs, Unity (C#)

VOLUNTEERING

Chairman, IEEE OpenWeek 2024 - University of Moratuwa Student Branch	01/2025 – 01/2026
Web Development & Marketing Lead - IEEE Robotics and Automation Society	02/2023 – 02/2024
Treasurer of LEO club University Of Moratuwa Term 22/23	01/2022 – 01/2023

SPORTS

Senior National Sri Lanka Team Hockey Player - Right Half	03/2023 – 11/2023
Represented Sri Lanka at both Junior and Senior national level; Right Forward & Right Half.	02/2022 – 11/2022
Captain, University of Moratuwa Hockey Team - Interuniversity Championship 2022, SL University Games 2023 (2nd runners-up), Pera Sixes Champions 2022.	02/2022 – 07/2026

CERTIFICATIONS

AI ML Engineer Stage 1 - SLIIT UNI (2024) 
Node.js, Express, MongoDB & More - Udemy (2024) 
Advanced React - META (2023) 

AWARDS

University Colours awards 2022 and 2023
Two times university colours award winner in term 2022 and 2023
IEEE Student branch Committee Member award
Logistics management Committee best volunteer member award for term 22/23

HACKATHONS

TADHack Sri Lanka - Top 5th place island-wide · Team Lead (Hsenid Mobile ideathon)
Code Rush - Top 10 · INTECS-UOM
CodeRally 4.0 - Generative AI Hackathon · IEEE Computer Society SBC of IIT
